- Jungle Views

Property Description

At the entrance to this one-of-a-kind paradise, the clean gravel driveway takes you to your new, low impact, "off-grid", studio cabin*. From the well-appointed cabin, you have numerous sustainable trails that allow you to easily explore this rich jungle paradise. This virtually undisturbed land embraces its own ecosystem and this allows the wildlife that resides here to live in complete harmony with each other with almost no interference from the outside world. Unlike secondary jungle which is very thick, the trails on this piece of untouched paradise require very little effort to maintain as a result of the large primary jungle trees keeping the undergrowth at a minimum. The walkable grade of this stunning land is a place of ease for all ages and fitness levels to wander and explore. Directly from your cabin, there is a nice trail that allows clear access to your 130 meters of exquisite Uvita Riverfront.
