Property Description

his beautiful two-bedroom house and studio are located on a residential road, only a five-minute drive down to the white-sand surfing beach of Santa Teresa. The main house has two bedrooms and one bathroom. There is an open-plan living and kitchen area, with a comfortable covered outside deck and dining table. From the deck you look out over the tropical landscaped garden and swimming pool. A separate pathway from the secure parking of the property takes you to the stand-alone studio apartment. The studio has a kitchen, full bathroom and a covered deck area. Each house has access to its own laundry area. The main house and studio have been configured so as to provide maximum privacy for each. The two units can be rented out separately, or together as a three-bedroom property. Given the location, the property works well as either a short-term or long-term rental, or as a lovely family home.
