- Property Type: Land
- Size: 96720 sq m
- 23.9 Acres

- Status: Available

## Property Description

La Isla - Your Private Tropical Jungle Escape La Isla started with one dreamer's plan to craft a secluded, island-like hideaway. Over a couple of years, he pieced together fincas along a quiet, green bend of the Nosara River, creating a 9.7-hectare (23.9-acre) tropical retreat. The river winds around almost the entire property, wrapping it in a private, jungle vibe, yet it's just minutes from town. Forget long drives or steep climbs—this is your tucked-away paradise with easy access. It's got that wild, tropical-finca feel, sitting right across from the local airport and town entrance, a short trip to schools, beaches, restaurants, and all the nearby fun. A standout feature is the 50-meter well, pumping out a steady 20 liters of water per second. With a whole kilometer of riverfront, it's perfect for quiet, nature-friendly projects that blend into the jungle setting, your own piece of paradise with room to dream.
