Property Description

This elegant, Phase 6, Ojochal home is surrounded by vibrant flowers and well-tended landscaping, opening onto pristine, jungle reserve behind. Bright and airy, the lot also features fresh breezes and a Pacific view! A rare and special find to have such a lush setting and a sparkling Pacific vista. Featuring a magnificent Guacimo rojo o colora tree, alive with ivy and vines, a mix of sunny areas and welcome, light-dappled shade. Pebble and stone paths give access into the trees, mossy rocks, flowers and verdant growth, to a seasonal river and rock pool. It really is like living in your own private jungle park. The 3000 square foot, 3 bedroom, 2 storey backsplitted home, is rare for Phase 6, as builders height restrictions allow only single storey from the front. The back split design creates a relaxed, airy main floor indoor-outdoor, open concept living room and kitchen with master bedroom, ensuite 3-piece bathroom and laundry.
