Property Description

Casa Uchuva is a thoughtfully designed residence that blends modern architecture with its tropical surroundings. Centered around a mature Guácimo tree, the home integrates natural materials such as wood, stone, and concrete to create a warm and contemporary living environment. A dramatic 5-by-10-foot pivot entry door opens to interiors defined by exceptional craftsmanship and custom teak woodwork throughout. Teak ceilings, bespoke cabinetry, and built-ins complement a striking kitchen featuring San Gabriel black granite countertops, custom teak cabinetry, stainless steel accents, and a premium Monogram range. A lighted wine display and outdoor BBQ area create ideal spaces for entertaining. Designed for seamless indoor-outdoor living, large glass panels open the main living areas to the terrace and freshwater pool, where floating step pads lead across the water beside a landscaped courtyard between the bedrooms.
