Property Description

This property offers a lifestyle defined by space, privacy, and connection to nature. The Black Stallion Eco Ranch community is designed for low-density living, featuring extensive trail systems, equestrian paths, and panoramic viewpoints, all surrounded by preserved tropical landscape. Despite its peaceful, countryside feel, the property remains well-positioned, just a short drive from Tamarindo and Playa Avellanas, two of Guanacaste's most desirable beach destinations known for surfing, dining, and relaxed coastal living. This newly built 3-bedroom, 2-bathroom residence offers approximately 1,270 sq ft of interior space, complemented by 600 sq ft of covered outdoor living areas. The layout prioritizes functionality and flow, with an open-concept kitchen and living area extending seamlessly onto two spacious terraces. Natural light, clean architectural lines, and a strong connection to the outdoors define the home's overall design approach.
