Property Description

3BR Residence with Pool, Privacy and Architectural Warmth Located in the well-established Uvita Bahía area of Costa Rica's South Pacific, this residence presents a balanced expression of tropical design, privacy, and proximity, just 3 minutes by car and approximately 10 minutes walking to Parque Nacional Marino Ballena and the surrounding beaches. Set on a 622 m² lot, the property offers approximately 350 m² of total construction, including 250 m² of interior living space. The home is defined by clean architectural lines, generous proportions, and a layout that prioritizes flow between indoor and outdoor living, creating a space that feels open, calm, and intentional. The social areas extend naturally toward a large covered terrace, where integrated ceiling details, warm lighting, and seating areas create an environment suited for both everyday living and hosting. This transition toward the outdoor space is one of the home's strongest attributes, reinforcing a lifestyle centered around openness and connection with the environment.
