Property Description

Casa Rosada is a 4-bedroom, 2.5-bath beach house just a short drive from Playa Puerto Viejo. The entire house is surrounded by trees and plants that make you feel tucked away in the tropical greenery. The wraparound patios on both floors are a real highlight, there's always a shady spot to settle in and relax. It's built in that classic Caribbean plantation style, and it suits Guanacaste's sunny weather perfectly. On the first floor, sliding doors from the living room open directly onto the porch. The living room is filled with windows that keep the space bright and airy, and it flows right into the kitchen with a half bathroom nearby. From the bay windows, you look out onto a kidney-shaped pool framed by mature trees and local plants that give the yard good privacy. Up the circular staircase, you'll find four bedrooms upstairs: three guest bedrooms that share a bathroom, and a master bedroom with its own bathroom and a sliding door that opens onto the balcony.
