Property Description

Positioned at the highest elevation of Senderos Phase 1, Villa Solreva is an architecturally distinguished estate set on a premier 1,594 m² (17,159 sq ft) lot with sweeping views of the mountains, valley, and Tamarindo estuary. Now entering its final phase of construction, the home will be delivered fully turnkey in April 2026, including all furnishings, décor, kitchenware, linens, and completed landscaping. For buyers seeking a world-class residence without the complexities of building in Costa Rica, Villa Solreva presents a rare opportunity. From sunrise over the mountains to evening light reflecting across the estuary, the home's orientation captures an ever-changing natural backdrop. Distant valley lights glow at night, while surrounding jungle enhances privacy and a sense of retreat. The seamless relationship between architecture and landscape defines the character of Villa Solreva.
