Property Description

Spacious ocean-view homesite with excellent topography and strong development potential in Costa Rica's Southern Pacific region. Lot 5 in Phase 5 of Ojochal presents a compelling opportunity to invest in ocean-view land in one of the most desirable areas of Costa Rica's Southern Pacific coast. With 0.35 acres (1,428 m²) of usable land, this property offers an excellent setting to develop a private residence, vacation home, or long-term real estate investment. One of the key advantages of Lot 5 is its highly usable topography, allowing for efficient design and construction. Unlike many hillside properties in the region, the terrain is well suited for building, making it easier to plan a home that maximizes the available space while taking advantage of the surrounding views. From the property, you can enjoy expansive views of the Pacific Ocean and the surrounding mountains, along with refreshing coastal breezes that contribute to a comfortable climate throughout the year.
