Property Description

Perched above the coastline in the peaceful surroundings of Playa Camaronal, this rare ocean-view lot offers a dramatic landscape designed for visionaries seeking privacy, nature, and unforgettable views. Overlooking Camaronal Bay, the property captures both expansive ocean views and lush forest scenery, creating a setting that feels immersed in nature from every angle. The steep topography creates the perfect opportunity for a multi-level architectural design, maximizing the breathtaking vistas from multiple vantage points. With access from two separate roads, the property offers unique flexibility for design and functionality. Create a private casita or nightly rental with its own entrance on the lower portion of the lot, while reserving the upper build site for your main residence or elevated retreat above it all. Wake up to views that quite literally take your breath away, where the sounds of nature and the rhythm of the ocean create a feeling of complete escape.
