Property Description

Guacalillo is renowned for its excellent surfing conditions, wide sandy beaches, and unspoiled natural environment. Located just 2 kilometers from both Guacalillo and Bajamar Beaches, this property offers expansive views of the Pacific Ocean and steady coastal breezes. This residence was originally built as the developer's home, constructed with concrete and steel for exceptional strength and longevity. More like a cement fortress than a typical beach house, it features 2 bedrooms and 2 bathrooms, can comfortably accommodate up to 8 guests, and includes a private pool. The architectural design of the house was carefully considered in order to accommodate the addition of a second floor. The open-air two-car garage also functions as a covered entertainment area suitable for any weather. A trusted caretaker lives directly nearby, and his wife provides housekeeping and laundry services.
