📍 Tamarindo, Guanacaste

\$525,000

ID: CR26008215M

- Property Type: Land
- Size: 12705 Square metres

- Status: Available

Property Description

Palo Vista is a gated development ideally located along the main road between Huacas and Villarreal in the province of Guanacaste, Costa Rica. Its central position places residents just minutes from grocery stores, shopping, and everyday services, while several of the area's most popular beach towns—including Tamarindo, Playa Grande, and Playa Flamingo—are all within a short 15–20 minute drive. Lots 6 and 7 are being offered together to take full advantage of the terrain and usability of the land. Lot 6 features a rare, expansive flat building site anchored by a natural rock formation, while Lot 7 sits just below and slopes gently toward the road, providing additional building potential or complementary use. What makes Lot 6 particularly compelling is its scale and topography. Large, flat parcels like this are increasingly difficult to find in this area, and the usability of the land allows for a wide range of development possibilities beyond a traditional home.
