It simply doesn't get any better than this! Built in 2004 and originally designed by renowned architect Abraham Valenzuela this home was extensively remodeled to fit the exact needs of the present owner. This seaside villa was, in effect, designed and then re-designed to make it perfect! The gated entrance and courtyard help prepare you for a sensory experience. The orientation and design concept leads you through a spacious living area and beyond to the magnificent pool, grounds and ocean that you can nearly reach out and touch.... The outdoor entertainment area includes two Jacuzzis, an outdoor BBQ and an expansive covered patio. One of the six bedrooms is a free standing casita privately positioned off the pool and gardens.
