The fully fenced property is accessed through two secure metal gates, where a spacious garage provides parking for two vehicles along with generous storage. A picturesque driveway winds through the property before arriving at a circular drive and the main residence, a solid concrete block home designed to embrace the spectacular surroundings. A full-length hardwood terrace extends across the front of the home, creating an unforgettable outdoor living space overlooking the beautifully landscaped gardens, expansive swimming pool, and endless Pacific coastline. Whether enjoying your morning coffee, dining al fresco, or watching the sun disappear into the ocean, this is where the views truly take center stage.
