

Land For Sale

Savegre, Puntarenas

\$765,000

ID: CR26012295M

- Property Type: Land
- Size: 123245 Square metres

- Status: Available

Property Description

A truly unique property located in the sought-after mountain community of Lagunas less than 12 minutes to Dominical beach. Rarely does a property of this size become available in this desirable of an area close to everything. Perfect family estate, multiple family and friends compound, mini-development of 3 to 5 lots, or small working farm or homestead with livestock, stables, and more. The land is accessed by an easement and has end of the road privacy with rolling hills of potential pasture land or could be converted to fruit orchards and sustainable micro-farm. The interior road currently accesses 3 distinct areas that would be ideal for homes sites or individual estates. The top building site is spacious and has the most expansive mountain and valley views. The middle section has two flat building sites for a home and guest house and great views as well. The lower section has the largest flat building pad which is huge, and some amazing jungle with immense trees and also has views of the valley.
