Property Description

Casa Mono Congo is a unique and eco friendly, luxury estate home which unites everything which makes the Manuel Antonio area such an amazing destination. The 4 bedroom, 6.5 bathroom home is located in the heart of Manuel Antonio in an exclusive gated community of homes on Pacific Canyon Drive. The property sits at the end of a private cul de sac nestled into the jungle and rainforest canopy. There are beautiful views of the Pacific Ocean from all levels of the home, yet each and every room and common area is within arms reach of the tree tops and the wildlife so common in this area. The home in fact draws its name from the frequent visits of the Howler Monkeys, Mono Congo, in spanish. The property offers up a flat and easy access from the garage and parking area with the main living area, kitchen, dining, pool and two full bedrooms all being handicap accessible. The kitchen has recently been totally renovated and includes Jenn Air stainless appliances, granite countertops and an island breakfast bar.
