Property Description

When you first come to see this home you will be tempted to walk straight through it to the patio and infinity pool that look out over a vast view of the Pacific coast and ocean. Yes, the home is gorgeous, but its setting puts it in a category of its own, and you will spend many happy hours soaking in the views, birds, monkeys and other animals, and night skies lit by the moon and stars. It's an experience that never gets old. The 3000 square foot house was designed and built to capture this rare place in the world – jungle covered mountains right beside a gorgeous tropical coastline. The grounds are creatively landscaped with vibrant plants that add color, interest and even some fresh fruit to the property. The kitchen boasts modern appliances, custom cabinetry, and rich granite counter tops. Eat at the breakfast bar, in an indoor/outdoor dining area, or poolside. All appliances and utensils will remain in place for your convenience.
