Property Description

Elegance, luxury, spacious and in harmony with the natural surroundings is the best words to describe Casa Rimba, a BRAND NEW custom built home located in the sought after area of the Escaleras mountain range, overlooking the South Pacific ocean. Recently completed in July 2016 Casa Rimba is simply stunning! The residence holds 5,000 square feet including 3 master bedrooms, 3.5 baths, truly a "tropical modern masterpiece" surrounded by dramatic jungle and with some of the most dramatic white water ocean views in the area, inclusive of the famous "whales tail" located just off the coast of Marino Ballena National park. This luxury home is at an elevation of 720 feet above sea level, the constant ocean breezes and cool air of the jungle are the origin of Casa Rimba's inspiration as it translation to sounds of the jungle. The gated electronic entryway leads into Ka Noare, a exclusive development of estate homes with many amenities and great hiking trails to waterfalls.
