Property Description

This property is part of Seabreeze Farms, a 200 acre conservation / residential project in the Lagunas Valley with access from Hatillo and Dominical, which is about 15 minutes from the Paved roads. The property offers 2 acres of usable flat space that would make an excellent site for an eco-lodge or jungle cabins surrounded by Creeks and Cascades. One of the borders is an all year creek and right across the street is the nicest swimming hole in the valley. The property has access to a 90 acre private nature reserve full of wildlife including white-face monkeys and many tropical birds!! The house has 2 bedroom and 2 bathrooms and was recently built. The kitchen has all custom cabinets and brand new stainless steel appliances. There is also a laundry room. The home has a great feel to it. It barely uses up any of the flat land on this property so there is tons of room to expand for someone that wants some cabins or another home.
