Property Description

Here's a property that really has it all! It is located in the heart of Platanillo, a small mountain community just 20 minutes from the beach and 30 minutes to the city of San Isidro del General. Platanillo has the largest grocery store in the area, good connectivity, clean community water sources, and a diverse, amicable population. This area has an enviable climate as well: warm with breezes during the days and perfect A/C-free temperatures for comfortable nights. The entrance to this green community has an electric security gate with a local family living right there constantly alert to incoming vehicles. You will drive on well maintained internal roads using 2 wheel drive on the way to the property, and because of the design/planning for this development you will almost never see a house or building site from the internal road...just beautiful green jungle where all kinds of birds and other animals can be frequently spotted.
