Property Description

Visualize sitting on your back porch and enjoying the view that stretches from the point of Playa Guiones to the famous "Palm Tree" in front of the main surf break. The home has been meticulously maintained by the original owners and is absolutely a must see. The kitchen and living space doubles when it opens up to the back patio and infinity pool via solid collapsible glass doors. The home was designed to take complete advantage of the afternoon onshore breeze and the patio features an extended roofline keeping you cool in the afternoon tropical sun. The home is over 3700 square feet and was designed by local architect Lucca Spendlingwimmer and constructed by LHC Construction. The property will be sold complete with beautiful furnishings, high end appliances and gorgeous artwork. From the first-floor master suite, you will sleep like a king and awaken to the sound and beauty of the ocean below.
