Property Description

CASA BECKY - Located in the heart of the Village of Santo Domingo, Casa Becky commands a dramatic mountain, valley and ocean view. Beautifully designed, constructed and maintained, this open concept home offers 3 bedrooms, 2 baths, spacious indoor and outdoor living spaces, a laundry room, single car garage plus a carport and a beautiful 1 bedroom/1 bath apartment with a private entrance and exterior terrace. Demonstrative of the quality of construction are the handmade custom teak cabinets, bedroom furniture and solid teak doors, All bedrooms in the house and apartment have split system air conditioning, but these units are seldom required with the cooling mountain breezes that are routine at the almost 1,000 foot altitude of Santa Domingo. The 627m2 lot has mature fruit trees, and there is an additional adjacent lot offered by the same seller for \$40,000. Casa Becky comes fully furnished including appliances, beautiful furniture indoors and out, window coverings – and everything else right down to the pots, pans and silverware.
