Property Description

Are you searching for a newly built, cleanly designed home with fine finishes and an expansive ocean view? Casa Dulce has all of this as well as an infinity edge pool and natural jungle surroundings, and is suitcase ready. This 3 bedroom, 2 bathroom house is perfect for your permanent move to paradise or an income producing rental and vacation home. The 900 foot elevation along with the open living spaces with high ceilings and natural lighting keep it light and breezy and the design ensures that the views are visible from each bedroom and living area. Add your decorations and artwork to go with the hardwood floors, granite countertops, large windows, and extra garden space, and you will have a relaxing, refreshing space for entertaining or chilling. The home is low maintenance so you can do other things with your time. Located just 7 minutes up a well maintained gravel road from the coastal highway between Uvita and Dominical, the elevation is what makes for beautiful views and cool breezes.
