Property Description

Casa de las Nubes is one of the premier homes in the Vistas de Chirripo community, a popular development in the verdant green folds of the Las Nubes Reserve and Chirripo National Park. The home is situated on over 7 acres of gorgeous real estate that slopes from the main road of the development down to the pristine Peñas Blancas river. There is an easy trail down to the river, where you will find great swimming holes and a hidden waterfall. There is also a separate building site with private entrance. The home itself offers true luxury living in Costa Rica's highest mountains. There are 3 large bedrooms, all with en-suite bathrooms and views. The home is "villa-styled", in that all bedrooms are large enough to be converted into individual suites. There's a covered patio that spans the entire length of the home, offering a great space to contemplate the views of the primary forest with its dizzying degree of biological diversity.
