Property Description

This paradise is about 700 meters above sea level, about 2 km from the main road (enough to not hear the trucks), 25 minutes from the center of Perez Zeledon, and about 25 minutes from the beach in an area not very populated, very quiet and with low car traffic. The property has a main gate and the entire front has a natural fence that gives a lot of privacy since the house cannot be seen from the outside, and inside you will feel like all the nature that is around it embraces you giving a feeling of freshness and tranquility. The house is very solid, it is built all in cement with large columns that serve as the foundation for the second floor. It was built with large sliding windows thinking of taking advantage of natural light to the maximum and metal tubes in the stands and balconies for greater security and ease. Additionally, we have a large green area and a portion of the jungle to always guarantee the privacy of the place.
