- Water Views

Property Description

This is a very special ocean view property located in the hills above Playa Hermosa, just north of Uvita and Just south of Dominical. The 4.6-acre property is about 5 min up a gravel road from the main paved coastal highway and right across the highway is Punta Achote, the northern end of Playa Hermosa, and an amazing surf spot. You can see the surfers from this property. A few hundred meters south you will find the main 2 parking lots for Playa Hermosa and just like the name says, it is a beautiful beach. The property is private and has an amazing jungle feel to it. You are surrounded by dense rainforest and behind the main building site is one of the biggest trees you will ever see. There is the main building site and then another area up by the big tree where you could build a second home. The property currently has a small caretaker's house, and an open-air house plus a few glamping platforms.
