Property Description

This cozy custom-built 2 bedroom home sits on private property in the mountains above the town of Hatillo. The property sits at approx 400 ft elevation and is a 5 min drive to town, and then just 5 more minutes to empty beaches, and also 5 min to Playa Dominical. The house has all year sunsets over the ocean and you can see waves breaking up the coast towards Manuel Antonio. The property is on a dead-end road and has a gated entry to the driveway that brings you to the parking area. The minute you pull into the property you are greeted by the infinity-edge swimming pool and the spectacular ocean views. There is a great lawn area next to the pool. The first floor of the home has a main grand room with an octagon shape. This area has a kitchen, living room, and dining room. It also has a very large covered porch that wraps around the ocean side of the home. Then if you go outside you will find one of the bedrooms attached to the house with its own private bathroom.
