Property Description

Just completed in June of 2022 with OUTSTANDING UNOBSTRUCTED views over the Uvita Whale's Tail, Isla de Cano, Isla Ballena, the Osa Peninsula and the Uvita River! These 2 Villas, each with its own pool, are comprised of 2 bedrooms and 1 full bathroom each, with a lovely living area and kitchen. Both kitchens feature custom built cedar cabinets and quartz counter tops. The bathrooms are finished with river stone and Spanish tiled showers, quartz counters and kohler fixtures. The principal ocean view bedroom and guest room feature custom beds, built in closets and air conditioning. There is also a secure owners closet and built in laundry. Up the spiral staircase of each villa is the spacious pavilion area, finished with coralina tile and custom furniture with sunbrella cushions, offering the ideal area for lounging and soaking in the stunning views. The pools are set apart so as to provide privacy and the custom landscaping will be completed to insure lush and tropical separations between the two villas.
