Property Description

This spectacular jungle-river property is located in the 725 acre wildlife corridor residential development of Cinco Ventanas. Only minutes to beaches, full services and the coastal highway. Unique within the development, this jungle river Villa is conveniently located on the community maintained road yet features privacy and full immersion in the Costa Rica biodiversity experience. Monkeys, Toucans, Parrots, Morphos and a full range of flora and fauna can be observed while basking in either of 2 pools, relaxing on the wildlife deck, dining outdoors or visiting the 100 meters of river frontage. The year-round Rio Media Luna borders the entire Cinco Ventanas development on one side and has a nearby artesian source providing crystal clear, clean water. The 3 bedroom main Villa features a Mediterranean design with hardwood vaulted ceilings throughout. The 2 bedroom guesthouse has a more modern touch, with large abundant windows to accent the open floor plan as well as vaulted hardwood ceilings.
