Property Description

Priced to Sell!!! This is a unique opportunity to secure a wild 45 hectare track of land on the Guabo River. Located at the end of Fila Cacao looking out over the Guabo river, this property is made up of mature rainforest, some primary forest and overgrown cattle pasture. The land borders the Guabo river for over 1 km with many different swimming holes to enjoy. The Guabo river is a popular rafting and kayak destination. Wildlife is thriving along the river and these 111 acres are like a private nature reserve. Most of the terrain is very steep with the exception of a long flat ridge line located at the bottom of the property well above the river. In the upper portion of the land there is an area that can be developed with an ocean view looking down the Guabo river to the Baru River mouth in Dominical. If you are looking to live close to nature, this property helps connect the remaining forested tracts of land along the Rio Guabo.
