Property Description

In the tropical rainforest of Manuel Antonio is Jungle Creek Villas, a successful and unique vacation rental property comprised of 4 units sleeping up to 19 people surrounding a pool and patio plus the manager's suite above. Only minutes by car from the beach or the town of Quepos, the overwhelming impression of Jungle Creek is one of pure tranquility. Entrance to Jungle Creek is a welcoming path to a lovely arched door opened by an easy-to-use digitally coded lock system. An intercom connecting to the manager's suite offers a second method for guests to be granted access as needed. Adjacent to the entrance is a small reception. Up a set of stairs immediately to the left of the entrance is the manager's studio unit including an ample deck equal in size to the apartment itself with a pleasing view of the jungle. This unit could also be transformed into an additional rental unit. Principal to the property is the 3 bedroom house that sleeps up to 8 people.
