Property Description

Casa Añoro is named appropriately as it literally translates to the home you miss or yearn for again and again. This stunning property combines just about everything that makes Manuel Antonio such a special destination for investment and lifestyle into one fabulous package. The main home is a beautifully designed, three bedroom, three and one half bath luxury residence which is ideal for either a private residence or integration as a luxury vacation rental property. The property is located on one of the highest points in Manuel Antonio with a private access point in a section of homes called Las Vistas de Manuel Antonio and the home lives up to the name. There are panoramic ocean views from nearly every corner of the home with year round sunsets and amazing colors at every hour of the day. Also unique is that the property borders a private wildlife reserve that is part of the Hotel Gaia so in addition to the sweeping ocean views, there is an abundance of wildlife, including all three types of monkeys endemic to the area, toucans, sloths and a constant show of the amazing Scarlet Macaws which were reintroduced and are thriving in this area from the reserve below.
