Property Description

Casa Nadja is a luxury ocean view home with 5 bedrooms and 4.5 bathrooms in Playa Flamingo. This luxury home was designed and built by acclaimed French architect Scott Woods in 2015. It is built on three floors and has an open concept floor plan. The main floor features a modern luxury kitchen with stainless steel appliances, as well as a dining and living room that share one space. All of these spaces have been designed to have a unique view of the ocean and the new Playa Flamingo Marina. Moving on to the second floor, there are four separate bedrooms. The Master bedroom has an en-suite bathroom with a large luxury soaking tub and walking shower, a custom-built walk-in closet, and a balcony with an incredible view. The second room is larger than the other two and features a large built-in desk area and closet. The following two rooms are quite spacious and are currently used as bedrooms, but they can be converted into whatever you want, such as an office, a home gym, etc.
