Property Description

Jobo 11 is a lovely ground-floor condominium with three bedrooms, one office, and four bathrooms. A separate door leads into the Master bedroom, which has a spacious bathtub, a comfy large bed that overlooks the rainforest, and a walk-in closet. The separate door will provide separation from the remainder of the unit, providing an alternative to renting the entire condo. Because of its location within the Jobo development, this apartment has access to the common area pool and patio, which overlooks the 12th hole of the golf course, as well as the enjoyment of a covered terrace. This spectacular condo is located within Reserva Conchal, Costa Rica's favorite resort, which will feature an 18-hole golf course, a Westing and a W Hotel, tennis, hiking trails, pickleball, and an amazing 60,000sq feet beach club with a health center, spa, kayaks, stand up paddle boards, bikes, restaurant, and a bar right in front of the magical Conchal beach.
